Power BI for Developers

Learner Workbook | 10 Days

Use this workbook to record decisions, assumptions, test evidence and learning outcomes. Do not treat screenshots alone as proof of correctness.

Day 1 — BI Fundamentals + Power BI Architecture

Today's Objectives

• BI vs OLTP/OLAP

• Facts, dimensions, measures, KPIs

• Power BI Desktop architecture

• Business question → visual

Lab Checklist

■ Retail Sales dataset

■ Create KPI cards

■ Create trend/region/product visuals

■ Add slicers

■ Reproduce supplied dashboard layout

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 2 — Data Connectivity + Power Query

Today's Objectives

• SQL/CSV/Excel connectivity

• Import vs DirectQuery

• Power Query transformations

• Data quality

Lab Checklist

■ Messy retail extract

■ Fix types/nulls

■ Merge customer master

■ Append yearly sales

■ Validate against SQL

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 3 — Semantic Modelling + Star Schema

Today's Objectives

• Fact/dimension design

• Relationships/cardinality

• Date dimension

• Filter direction

• Modelling anti-patterns

Lab Checklist

■ Build Retail star schema

■ Create date table

■ Create hierarchy

■ Test filter propagation

■ Refactor bad model

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 4 — Visualization + Report UX

Today's Objectives

• Visual selection

• Layout and hierarchy

• Slicers/tooltips

• Conditional formatting

• Accessibility

Lab Checklist

■ Build Executive page

■ Build Analysis page

■ Add tooltip

■ Redesign cluttered page

■ Peer UX review

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 5 — DAX Essentials

Today's Objectives

• Measures vs calculated columns

• SUM/COUNT/DISTINCTCOUNT

• DIVIDE

• CALCULATE/FILTER

• Time intelligence

Lab Checklist

■ Build 10 KPI measures

■ YTD/LY/YoY

■ Test filter context

■ Reconcile to SQL

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 6 — Rapid Customer Prototyping

Today's Objectives

• Requirement decomposition

• KPI dictionary

• Wireframing

• Prototype vs production

Lab Checklist

■ Healthcare requirement

■ Model + measures

■ 3-page prototype

■ 5-minute customer demo

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 7 — Interactive Report Development

Today's Objectives

• Drill-down/drill-through

• Bookmarks/buttons

• Navigation

• Dynamic titles

• Tooltips

Lab Checklist

■ Build drill paths

■ Add navigation

■ Provider/customer detail

■ 10 journey tests

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 8 — Claude-Assisted BI Development

Today's Objectives

• AI-assisted workflow

• DAX prompting

• Power Query/SQL prompting

• Requirement analysis

• AI validation/governance

Lab Checklist

■ Generate DAX

■ Generate M code

■ Requirement analysis

■ UX critique

■ Identify AI errors

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 9 — MicroStrategy/Cognos Legacy Migration

Today's Objectives

• Legacy inventory

• Metric/attribute mapping

• Prompt/filter mapping

• Reconciliation

• Gap/risk management

Lab Checklist

■ Analyze legacy report

■ Build mapping matrix

■ Recreate model/DAX

■ Validate outputs

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____

Day 10 — Capstone + Certification

Today's Objectives

• Customer delivery

• Technical validation

• Presentation

• Production hardening

Lab Checklist

■ Build/finalize capstone

■ Validation sheet

■ 10-minute demo

■ Q&A;

■ Certification assessment

My Business Questions / Requirements

1. _____
2. _____
3. _____

My Design Decisions

Model / visual / filter / interaction decision:

_____

Reason:

_____

Validation Evidence

Expected value: _____ Actual value: _____
Validation query/test: _____
Result / issue found: _____

Daily Assignment

_____
_____
_____

Reflection

What I learned: _____ What I need to practice:

_____
