Three Customer Capstone Specifications

Capstone 1 — Healthcare Financial & Claims Dashboard

Customer needs executive visibility into claims cost, revenue, members, provider performance, payer performance and regional trends.

Data Tables

• FactClaims

• DimMember

• DimProvider

• DimDate

• DimRegion/Payer

Required KPIs

• Total Revenue

• Total Claims Cost

• Gross Margin

• Member Count

• Claim Count

• Claims PMPM

• Revenue PMPM

• YoY Revenue %

• YoY Claims Cost %

Required Pages

• Executive Overview

• Provider Analysis

• Claim/Provider Detail

Page Content

• Revenue, Claims Cost, Margin, Members; monthly trend; regional/payer performance.

• Provider ranking with claims, cost, revenue, margin.

• Drill-through to provider/member/claim detail.

Acceptance Criteria

All primary KPIs reconcile to supplied expected outputs; slicers work; drill-through works; time comparison is validated; eight stated business questions can be answered.

Capstone 2 — Supply Chain Command Center

Manufacturing customer needs visibility into inventory, purchase orders, suppliers, delivery performance and stock-outs.

Data Tables

• FactInventory

• FactPurchaseOrder (trainer may provide)

• FactShipment (trainer may provide)

• DimProduct

• DimSupplier

• DimWarehouse

• DimDate

Required KPIs

• Inventory Value

• Inventory Units

• PO Value

• Supplier Count

• On-Time Delivery %

• Stock-Out %

• Average Lead Time

• Open PO Value

• Slow Moving Inventory

Required Pages

• Supply Chain Executive

• Supplier Analysis

• Inventory Detail

Page Content

• Inventory/open PO/OTD/stock-out KPIs plus trend and warehouse performance.

• Supplier ranking with PO value, delivery and lead time.

• Product/warehouse inventory with drill-through.

Acceptance Criteria

Critical numbers reconcile; user can identify supplier/warehouse exceptions; legacy report, if supplied, is improved without changing agreed KPI definitions.

Capstone 3 — Sales & Customer 360

B2B organization needs executive sales performance plus salesperson and customer-level analysis.

Data Tables

• FactSales

• FactTargets

• DimCustomer

• DimProduct

• DimSalesperson

• DimRegion

• DimDate

Required KPIs

• Revenue

• Target

• Achievement %

• Profit

• Margin %

• Orders

• Customers

• Average Order Value

• New Customers

• Repeat Customers

• YoY Growth

Required Pages

• Executive Sales

• Salesperson Performance

• Customer 360

Page Content

• Revenue/target/achievement/profit; regional/product performance.

• Salesperson ranking with target attainment and margin.

• Customer revenue, orders, products, last order and margin; drill-through.

Acceptance Criteria

KPIs reconcile; target attainment is correct; customer drill-through works; report answers executive, manager and customer questions.

Common Capstone Requirements

Three pages; 8+ DAX measures; 3+ slicers; drill-down or drill-through; validation sheet with 10 tests; model diagram; KPI dictionary; Claude prompt log; 10-minute customer demo + 5-minute Q&A.;
